1991/92 BUSINESS DIRECTORY

BUSINESS SENSE

If you've got a sense for exceptional business opportunities, here's why Scarborough is right for your next corporate move.

Accessibility. Compared to most other large urban centres, Scarborough's congestion-free roads are easy to move around on. We also have excellent public transit—including the GO—and direct highway connections into and out of Metro. The International Airport is a short, convenient drive away.

Good people. You'll find plenty of them in Scarborough. More than outlying business communities, we can offer a large pool of skilled labour just minutes from your office.

Low overhead. Another bonus is Scarborough's effect on your bottom line. Office leasing rates here are up to $15.00 per square foot less than comparable facilities in downtown Toronto.

Call now. If you're looking for the best location in Metro Toronto, take a closer look at Scarborough. Call or fax for our "Business Sense" information kit by contacting

Tel: (416) 396-7222
Fax: (416) 396-4286

Scarborough is the seventh largest city in Canada and is one of the country's most dynamic and rapidly developing cities. Scarborough has been a major growth municipality with its population increasing by 72,000 since 1981 to over 520,000 in 1991. This tremendous growth is a direct result of our strategic location within Metropolitan Toronto, our abundance of skilled labour and the amenities offered by a well developed infrastructure of business, transportation, schools, hospitals and recreational facilities.

We take pride in our community by building for the future, while preserving our heritage and natural environment. In addition to thousands of acres of parkland, Scarborough contains a showcase of natural beauty in the Rouge River Valley and historic Bluffs on Lake Ontario.

Our economy is one of the strongest in Ontario due to the diversity of our service and manufacturing sectors. It is this economic diversity coupled with our efforts in promotion and business retention that have given Scarborough economic stability.

Despite less than desirable economic conditions, Scarborough has witnessed the completion of several prestigious office developments which include Consilium Phase III, Corporate Plaza, Milner 325 and the Royal Bank. Twelve million square feet of office space are in the planning stage as well as a convention hotel and performing arts cultural centre.

The majority of Scarborough's office developments are strategically located in the City Centre and immediate area. Scarborough's dynamic City Centre location next to highway 401 provides the dual advantage of excellent visibility and east-west accessibility. The City Centre is served by the rapid transit system which provides a link to downtown Toronto, a catalyst for higher density development in Scarborough.

Scarborough boasts a high quality of life for its residents and employees. Scarborough is unique in offering the combination of cosmopolitan amenities in a natural green setting. Residents enjoy the services provided by the Scarborough Town Centre shopping mall, state of the art Y.M.C.A. and award winning Civic Centre as well as the relaxation offered by the many green getaways found by the Bluffs and numerous parks.

As Mayor of Scarborough, I invite you to consider Scarborough as a future site for your business and your home.

Joyce Trimmer
Mayor

GROWING TO MEET YOUR BUSINESS NEEDS

At Royal Bank we understand that while the tried and true might be perfect for some businesses, others call for a different approach.

Our professional account managers are always finding innovative ways to help your business operation and recommend what's best.

Whatever it takes - term loans, commercial mortgages, foreign exchange, leasing, swaps, treasury management - we can help by bringing all the strengths of Royal Bank to bear on your company right here in Scarborough.

Visit our new Main Branch and see how Royal Bank's innovative banking can work for you. We have 21 branches to serve you in Scarborough. **Call us.**

SCARBOROUGH
THE CENTRE OF YOUR FUTURE

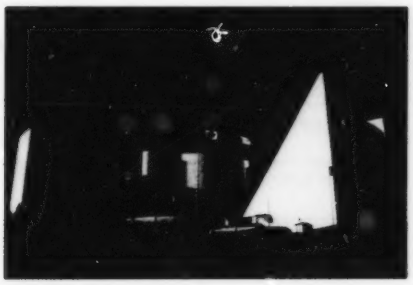
HISTORY

The area was named Scarborough in 1793 by Elizabeth Simcoe, wife of the first Lieutenant Governor of Upper Canada, because of its resemblance to the cliffs of Scarborough in Yorkshire, England. Three years later, David and Mary Thomson set up the area's first homestead. In 1850 Scarborough was a thriving farming community of 3,800 inhabitants.

Scarborough remained a purely rural community until the year 1910 when suburban development began at Birchcliff. Electricity, waterworks and high schools were established and by 1940, the population reached 23,274.

The postwar period in Scarborough had witnessed extremely rapid residential and commercial growth. In 1954, Scarborough became one of the federated municipalities of Metropolitan Toronto with a population of 95,706. Scarborough was designated a "Borough" in 1967, and in 1983 Scarborough officially became a City.

Today Scarborough is the seventh largest city in Canada with a population of over 520,000.

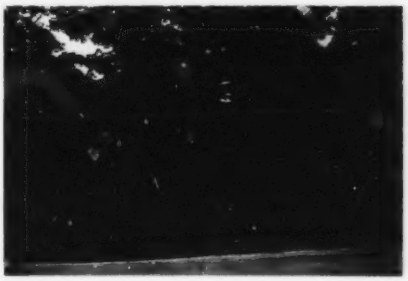


HOUSING

Scarborough offers its residents a wide choice of housing. It ranges from high rise rental condominiums to exclusive executive housing gracing the scenic Bluffs and Rouge River Valley. This wide choice accommodates a broad range of income levels and personal tastes.

Due to the large number of new homes built during the past two decades, the housing stock is relatively modern and suburban in character. In fact, since 1987 the housing stock has risen by more than 7,500 units to accommodate a growing population.

Houses in Scarborough are priced competitively with similar properties in suburban Metropolitan Toronto and are considerably less expensive than properties in downtown Toronto. Recent trends have seen an increase in construction of medium priced condominium apartments and large single family homes on smaller lots.



TRANSPORTATION

Scarborough is served by three airports which are within a 30 minute drive. Lester B. Pearson International Airport is Canada's busiest airport with over 1,200 domestic and international flights daily. Toronto Island Airport provides services for private aircraft and inter-city short take-off and landing. Toronto Buttonville Airport has facilities for private flying and executive air-charters.

Scarborough is served by Canada's two national rail lines, Canadian Pacific and Canadian National Railways; 3 major highways linking all of Ontario with Quebec and the Northeast United States; and a 750 mile (1200 km.) network of well maintained local roads. Two nearby harbours, in Toronto and Oshawa, provide full docking and customs facilities.

The Scarborough Rapid Transit Line and the extensive surface bus routes are all connected to the Metro Toronto Subway System. Future developments include the SRT North-east extension, Shepppard subway and Progress Avenue extension.

RECREATION

Scarborough operates an extensive recreation program with activities for all ages, skills and interests. These programs are provided in 17 community centres, schools, and the outdoor facilities in over 2,000 acres of parkland throughout the city.

Major facilities include an Ice Galaxy for figure skating and Bluffer's Park with a large boat marina. Salmon fishing charters can be arranged from Bluffer's Park and boat launching ramps are available. Each year, major salmon and trout fishing tournaments are held on Lake Ontario and involve several thousand participants. Another major event is the Robbie youth soccer tournament, the largest of its kind in the world. Scarborough's outstanding aquatic program provides residents with every conceivable water experience.

Scarborough has 230 public parks providing various leisure activities for families and individuals. In addition, there is a large natural park system operated by Metropolitan Toronto with well developed bicycle and walking trails. The Rouge River Valley and lands north of the Metro Zoo provide a major recreational haven for nature study and public enjoyment. The Province has made a commitment to preserve 10,500 acres of land in the Rouge Valley for a wilderness park.

EDUCATION

The Scarborough Board of Education has one of the finest school systems in Canada. It has over 7,000 teachers and support staff and operates 163 elementary and secondary schools. University of Toronto's Scarborough Campus is located on 300 acres of parkland. It provides undergraduate education in 700 courses for degrees in either Arts or Sciences. Studies can be pursued on either a full-time or part-

time basis. Regular bus service links the Scarborough Campus with the University main campus downtown. Ontario's first Community College, Centennial College, is located in Scarborough. It has four campuses and offers more than 70 post secondary full-time programs in arts, science, trade and technology and a wide range of part-time courses.

CULTURE

Culture is an integral part of Scarborough's identity. There are theatres, a symphony orchestra, art, museum exhibits and a strong sense of heritage. More than 100 community organizations are involved in promotion of the arts in Scarborough.

Scarborough's Culture Centre, to be located at the City Centre, is in the preliminary stages of planning. This Centre will allow the integration of culture and community activities within Scarborough's expanding City Centre.

The Scarborough Philharmonic, and The Cathedral Bluffs Symphony Orchestras provide the musical complement to a growing social scene.

Live theatre groups use the facilities of the Scarborough Village Theatre. They include the Scarborough Theatre Guild, Scarborough Players, and the Scarborough Music Theatre. Other theatre groups include the Victoria Players, Gage Stage Players and the Stagedoor Theatre. In addition, visitors to Scarborough have easy access to many of the fine museums and art galleries located in downtown Toronto.

VISITOR ATTRACTIONS

The Metro Toronto Zoo and the Scarborough Bluffs are just two examples of the tourist attractions in Scarborough.

The Metro Toronto Zoo is situated on a beautiful 710 acre zoological park. It has over 4,000 exotic animals, four regional tropical pavilions, and a botanical garden which features a vast collection of international flora. In winter it is a popular cross-country ski area. The zoo is open year round.

The Bluffs on Lake Ontario are known internationally by geologists for the information they provide on the glacial history of the earth. The Lake Ontario shoreline offers picnic areas, beaches, and boat docking facilities for 500 wet slips and 250 dry slips.

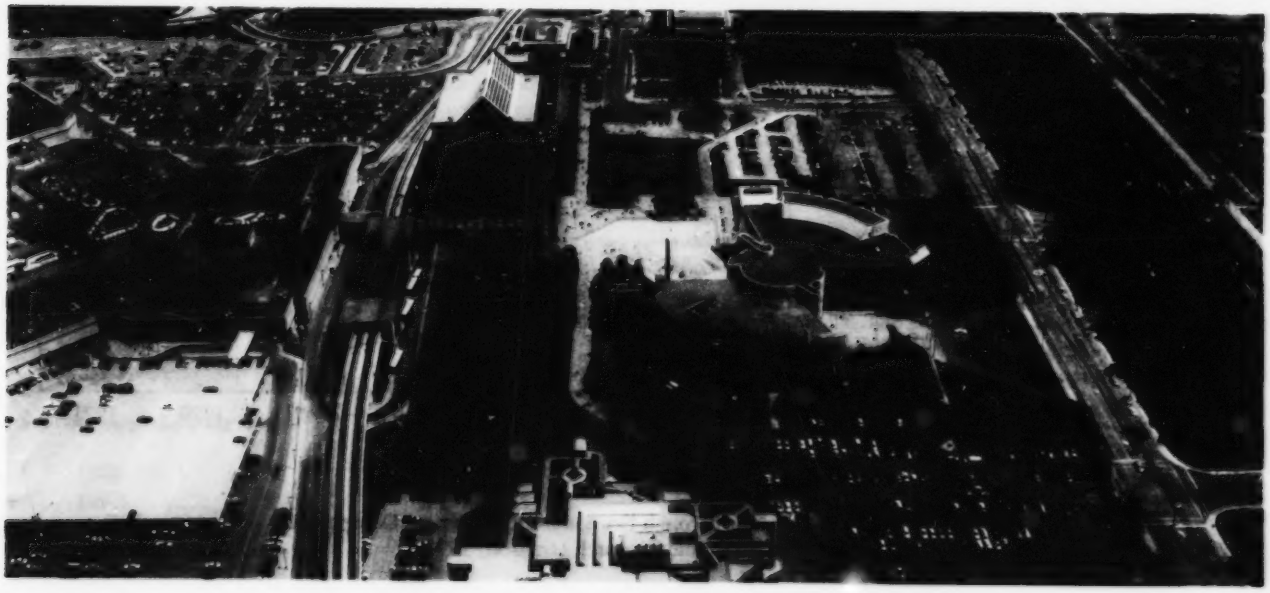
Visitors interested in shopping will find a wide selection of attractive shops in the Scarborough Town Shopping Centre with over 230 stores. Numerous smaller plazas provide local shopping in residential areas and along major roads. Specialty shopping is being planned for the City Centre. Excellent hotels, including a planned City Centre convention hotel, and restaurants are available to visitors for accommodation, entertainment and first class dining. Prices vary from moderate to upper mid-range and are very competitive in comparison with other areas in Metro Toronto.

FUTURE

Scarborough will remain the major population growth municipality in Metropolitan Toronto.

Scarborough has lands for housing, commercial and industrial developments. Recently completed office buildings are available for leasing in the City Centre and the Markham Road and Milner Avenue area. Further office development is being planned for these areas along with apartment, retail, and hotel developments. New and proposed industrial plants and malls are found in the areas north of Highway 401 and in the Tapscott, Milliken, Marshalling Yard, and Rouge industrial districts.

Scarborough is the centre of your future!



CITY OF SCARBOROUGH ECONOMIC REVIEW

LOCATION

The City of Scarborough is located within Metropolitan Toronto which in turn is the largest economic unit in Canada. The City comprises the east side of Metropolitan Toronto. Bounded to the west by the Cities of North York, Toronto and the Borough of East York, to the east by the region of Durham, to the north by the Town of Markham and to the south by Lake Ontario, Scarborough is very well situated to benefit from links with the well established municipalities to the west and the faster growing regions to the north and east. The City is within very short commuting distance to and from downtown Toronto, the financial capital of Canada.

Scarborough is within one day travel to many major centres in the U.S.A. and Canada.

	Miles	Km
Montreal	332	535
Ottawa	249	390
Hamilton	47	75
Boston	582	937
Buffalo	103	166
Chicago	503	810
Detroit	235	378
New York	495	797
Pittsburgh	333	536
Washington	494	795

POPULATION

The City of Scarborough is the third largest municipality in Metropolitan Toronto. In 1991, Scarborough's population was over 520,000. The City is the 7th largest City in Canada.

For the past fifteen years, the City of Scarborough's population growth has been greater than that of any other municipality in Metropolitan Toronto. Between 1981 and 1986, the City's population increased by 41,323 persons, from 443,353 to 484,676: a five year increase of 9.3% or 1.9% annually. This population growth can be almost equally attributed to natural increase and net in-migration.

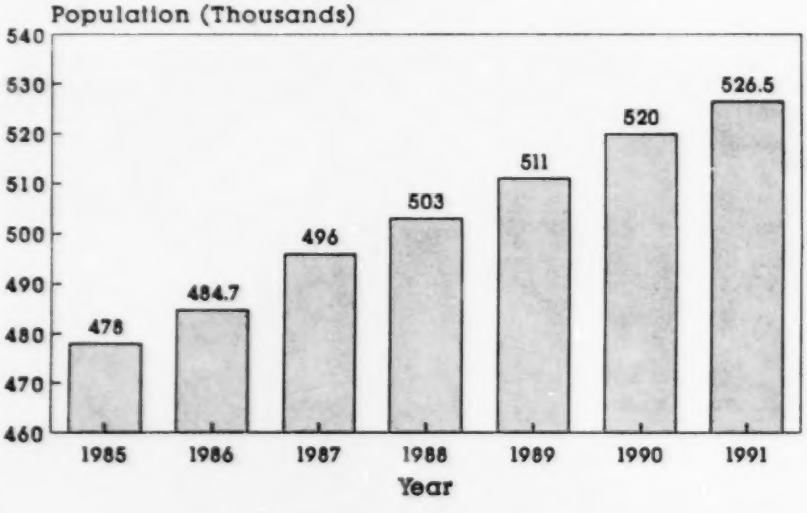
Furthermore, between 1986 and 1991 Scarborough's population increased an additional 7.3%.

Population projections indicate that by 1995, Scarborough will have a population of close to 550,000.

Scarborough Population (*Estimates)

1986	484,676
1988	503,000 *
1991	520,000 *
1995	547,000 *

SCARBOROUGH POPULATION GROWTH 1985-1991



Source: Scarborough Economic Development Department, Economic Research Division, 1990

INCOMES

Scarborough is characterized by a high proportion of middle income families. The average family income in Scarborough is similar to incomes in the City of Toronto and North York. Scarborough's population, however, has been increasing rapidly compared to the relatively stable populations of Toronto and North York. As a consequence, the total spending power of Scarborough has been increasing significantly. It is estimated that every year the personal disposable income in the City of Scarborough increases by about 120 million dollars. This supports higher service levels while simultaneously expanding the retail sector.

Income (1986 Census):

Average Income for all families	$42,611
Personal Disposable Income per Capita	$14,520

Family Income:
The average family income in the City stood at $42,611 in 1986. This is an increase of 44% as compared to 1981 ($29,615). This increase surpasses the inflation rate for the period and suggests significant real gains in family income. As of 1986, close to half the families in the city had incomes exceeding $40,000.

Retail:
The City of Scarborough has nine major shopping centres. There are currently close to 3 million sq.ft. of retail space proposed in the City of Scarborough. Much of the proposed retail is contained in mixed use developments.

SCARBOROUGH'S MAJOR SHOPPING CENTRES

	# of Stores
Scarborough Town Centre (McCowan & Progress)	230
Warden Woods Mall (Warden & St. Clair)	89
Eglinton Square (Eglinton & Victoria Park)	89
Malvern Town Centre (Tapscott & Neilson)	86
Parkway Mall (Ellesmere & Pharmacy)	85
Morningside Mall (Morningside & Kingston)	72
Agincourt Mall (Sheppard & Kennedy)	72
Cedarbrae Mall (Lawrence & Markham)	72
Bridlewood Mall (Warden & Finch)	70
Woodside Square (Finch & McCowan)	70

Scarborough Town Centre, located in the heart of the City, is the largest shopping facility in Scarborough with over 200 stores and restaurants including three major department stores (Eaton's, The Bay, and Sears) and 12 theatres. It is the major retail outlet in Scarborough and compares favourably with large malls elsewhere in Metro Toronto.

Retail Sales - Scarborough, 1990:

Retail Sales (in Millions)	$3,601
% of Canadian total	1.9%
Per Capita	$7,050

Source: Financial Post Canadian Markets, 1990.

EMPLOYMENT AND ECONOMIC PROFILE

Labour Force:
Scarborough's labour force is one of the largest in Ontario. Over 295,000 residents belong to the labour force in Scarborough alone. Economic realities, however, cross over local political boundaries; the labour force in the Toronto Census Metropolitan Area is 2,039,000.

Labour Force Growth:

Toronto Census Metropolitan Area	
1981	1,715,000
1990	2,039,000
% Change 1981 to 1990	18.9%

Scarborough Labour Force

1981	246,540
1990	295,000
% Change 1981 to 1990	19.6%

Scarborough's labour force increased by close to 20% in the period of 1981 - 1990, which is more than the rate of increase for the Toronto Census Metropolitan Area labour force. The Toronto Census Metropolitan Area labour force, of which the local labour force is included, provides actual and potential employers with the largest labour pool in all of Canada.

Scarborough Employment Structure:
Employment provided within the boundaries of the City of Scarborough is almost equally dominated by the manufacturing and office segments. The retail and service sectors are third and fourth largest. According to the 1990 Metropolitan Toronto Planning Department employment survey, a combined Full and Part time employment of 191,954 existed within 12,636 establishments in Scarborough.

EMPLOYMENT GROWTH

(Employment By Sector)

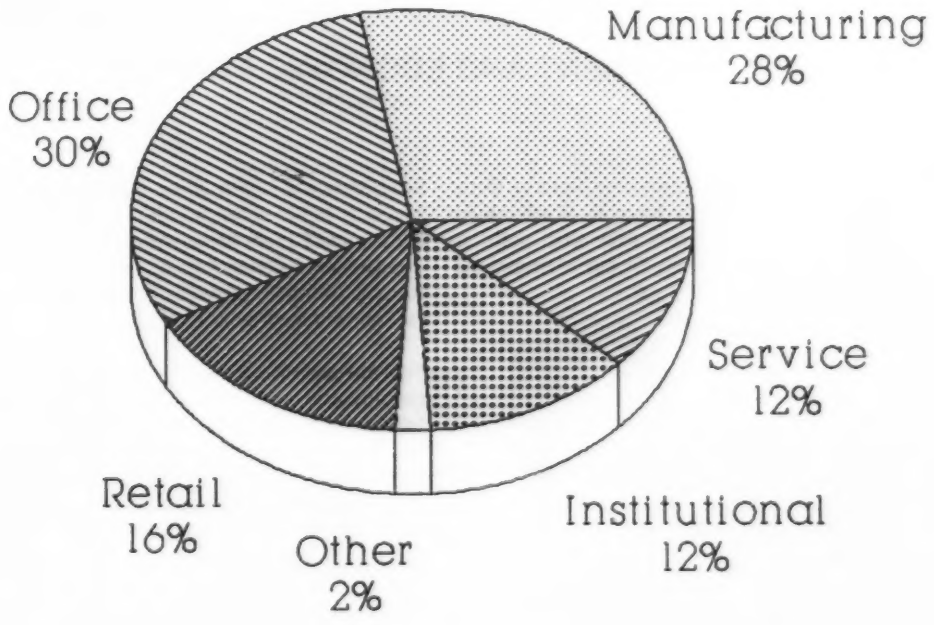
Source: Metro Toronto Employment, Land Use Assessment Data Bank, 1985, 1990.

Total employment in Scarborough grew by 38,737 jobs from 153,217 in 1985 to 191,954 in 1990. This represents a growth rate of 25.3%. In comparison to the other Metro Toronto municipalities, which grew by only 12.6% in the same period, Scarborough clearly outperformed the rest of Metro Toronto in terms of proportional job creation by a ratio greater than 2:1.

By 1990, the manufacturing and office sectors accounted for 21,929 of the new jobs created or 57% of total new jobs. Manufacturing in Scarborough grew by 14% during this period creating 6,843 new manufacturing jobs. During the same period office employment increased by 15,086 jobs or a 35% growth rate.

Scarborough's growth rate (1985-1990) surpassed that of the rest of Metro Toronto in all six of the industry codes. Manufacturing in Scarborough expanded by 14.3%, while Metro Toronto experienced negative growth of 17.7% during the same period.

SCARBOROUGH EMPLOYMENT BY SECTOR 1990



COMPARATIVE EMPLOYMENT GROWTH METRO TORONTO MUNICIPALITIES

Total local employment in Scarborough was 191,954 in 1990, ranking it third largest in employment in Metro Toronto. Scarborough's employment, however, is growing at a considerably faster rate than that of any other municipality in Metro.

MANUFACTURING GROWTH IN SCARBOROUGH'S INDUSTRIAL DISTRICT

Manufacturing is very important to Scarborough. As of 1990, close to 52,000 people were employed in the diversified local manufacturing sector in Scarborough's manufacturing districts. Over 4,000 acres of land are currently utilized by manufacturing and warehousing. Scarborough has been doing relatively well compared to Metropolitan Toronto. The City's share in manufacturing and warehousing employment in Metro rose to 24.3% in 1990 from 15.5% in 1981. In addition to being a major industrial district within Metro, Scarborough has the unique position of still having over 2,000 acres of available vacant industrial land. The recent past indicates that Scarborough can boast of two major advantages:

- Strategically located high quality industrial land
- Sufficient demand for industrial sites

Between 1985 and 1990, manufacturing employment increased by 14.1%.

In the period of 1985 - 1990, the fastest growing major groups by employment, in Scarborough's Industrial Districts were:

	1985 - 1990 Change
Clothing	154.2
Furniture & Fixtures	104.3
Petroleum	103.1
Textiles	70.1
Printing & Publishing	30.4
Transportation Equipment	21.5

Other significant fast growing industries include:

Food & Beverage	19.8
Fabricated Metals	13.9
Electronic & Electrical	11.4

Major increases in the employment occurred in Miscellaneous Industries (2643), Furniture and Fixtures (961), Food and Beverages (650), Electrical Products (738), Fabric Products (Clothing) (1203), and Printing and Publishing (1148). The largest industrial group is Electrical Products, which includes Philips Electronics, Noma Canada and Trench Electric. The second largest industry is Metal Fabricating followed by Miscellaneous Industries and Printing and Publishing.

SCARBOROUGH'S COMPETITIVE ADVANTAGE IN MANUFACTURING

Scarborough is part of the most significant urban-industrial complex of Canada. As part of Metropolitan Toronto in particular and the Toronto region in general, the City enjoys several advantages compared to locations situated further away:

1. Large well trained and motivated labour force
2. Easy access to the largest market in Canada
3. Good access to the U.S.A.
4. Very well developed transportation system
5. An extensive network of business services and supplies
6. An established industrial base
7. Education amenities ranging from Elementary schools to Universities including advanced research facilities
8. Very well developed cultural and entertainment fabric
9. Full range of medical services
10. High quality of life

Within the Toronto C.M.A., the City of Scarborough offers several advantages. Specifically, the City:

1. is very close to and indeed embedded within the major population complex
2. has experienced good increases in population and is located adjacent to other high population growth areas
3. is located next to existing industrial complexes within Metro Toronto
4. has a very significant local labour force
5. has high quality industrial land available
6. has a very good public transit system
7. has substantial land available for apartment construction

Recent recessionary conditions everywhere have resulted in a wider choice of industrial locations. Rents are much more flexible than before and the two combine to reduce the cost of industrial activity in the City. This newly found cost advantage coupled with Scarborough's good record in manufacturing growth should translate into renewed expansion of the local manufacturing sector once economic conditions become more favourable.

OFFICE SPACE DEVELOPMENT TRENDS

Office development in Scarborough has been very active since 1979.

Competitive office space was made available in small office buildings as early as 1965, but major competitive office space construction did not start until 1979. Between 1979 and 1983, 615,100 square feet (57,000 sq.m.) of competitive office space was added. In 1984, three major office buildings totaling over 1 million square feet (93,000 sq.m.) were constructed in the City Centre.

Office construction activity remained strong in the next five years when 1.3 million square feet (120,770 sq.m.) were built. By the end of 1990, the total office space in Scarborough had reached over 6.6 million square feet (613,140 sq.m.), and competitive office space had increased to 3.6 million square feet (334,440 sq.m.) or 54% of total office space.

Although close to 13 million sq.ft. of office space are in different stages of approval, the current adverse economic conditions and the relative glut of offices will delay the commencement of many projects. However the non-competitive segment of the office sector can provide for the slack in the competitive office market. Firms building offices for their own use will be affected more by internal consideration than market forces. Once conditions improve, a surge in office construction can be expected.

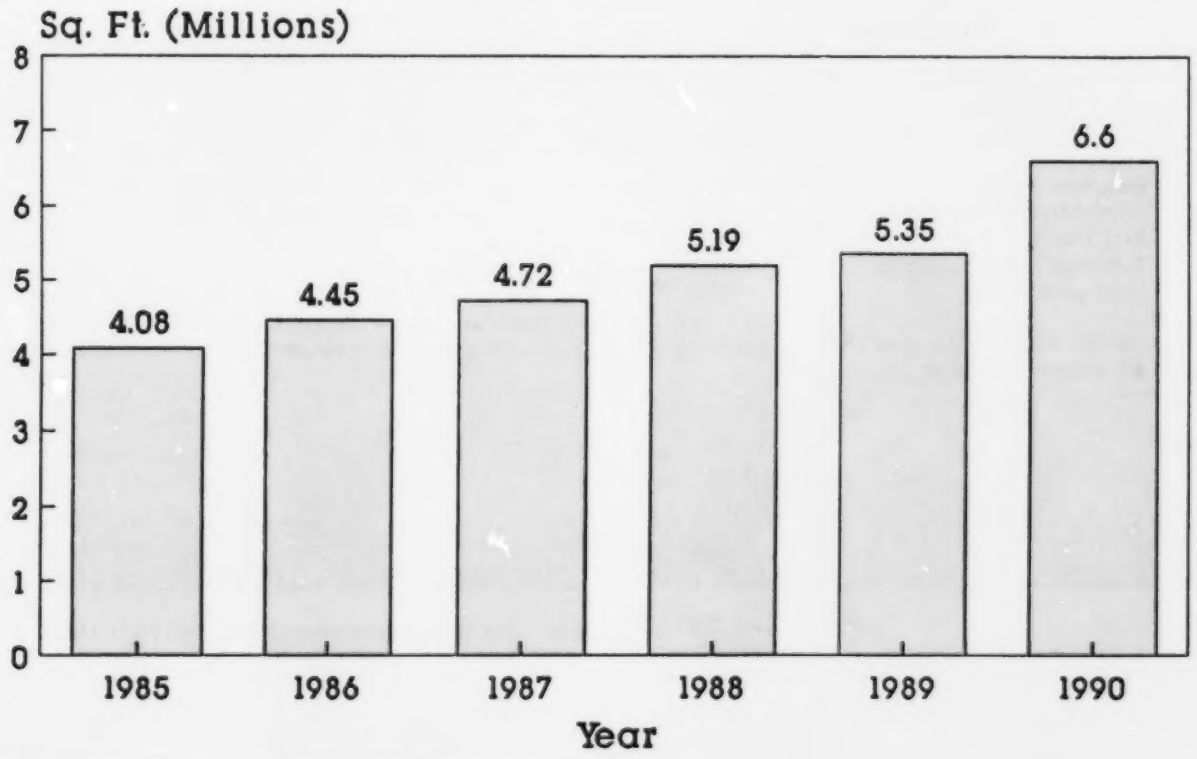
OFFICE SPACE IN OFFICE BUILDINGS

YEAR	(sq. m.)	(sq. ft.)
1990	613,140	6,600,000
1989	497,110	5,351,025
1988	481,826	5,186,500
1987	438,163	4,716,500
1986	413,498	4,451,000
1985	379,100	4,080,730
1984	379,100	4,080,730
1983	267,480	2,879,230
1982	219,832	2,366,330
1981	206,752	2,225,530
1980	169,805	1,827,830
1979	125,056	1,346,130

Transportation Access

Scarborough's City Centre and its office concentration is served by a rapid transit line which connects to the Metropolitan Toronto subway system. The link provides a quick access to downtown and other locations within Metro. Recent plans announced by the Provincial Government call for the extension of the rapid transit line to the Malvern community. When completed, this extension will serve the growing office concentration in the Markham Road and Milner Avenue area.

SCARBOROUGH OFFICE SPACE
1985-1990



Source: Scarborough Economic Development Department, Economic Research Division, 1990

Most of Scarborough offices are also ideally located in close proximity to highway 401 thus providing for convenient and quick access by car.

Costs:
The cost advantage of Scarborough office space is evident from the following comparisons.

Prime Space	**Average Net Cost Per Square Foot**
Scarborough (Central Area)	$20.40
North York (Central Area)	$22.81
Toronto (Central Area)	$32.43

Regular Space	**Average Net Cost Per Square Foot**
Scarborough (Central Area)	$15.87
North York (Central Area)	$18.41
Toronto (Central Area)	$18.91

Source: Colliers, Toronto Office Space Market Survey

For the firm that does not have to be in Downtown Toronto, Scarborough offers an efficient and economical location for offices. Tremendous time savings can be achieved by locating in Scarborough. For example, individuals now living in the north-east section of the Greater Metropolitan Toronto area (Markham, Pickering, etc.) can travel up to 20 km more to get to offices in downtown Toronto or 10 km more to get to the main office centre in North York.

During peak travel periods this may add an additional hour of daily travel time, to and from work. Based on the Canadian Automobile Association's estimates, the extra distance travelled costs an estimated $686.00 per year to work downtown or $343.00 to work in North York. In addition, direct access to the airport makes it easier and faster to get there from Scarborough than from downtown. Time is also saved when travelling to meetings and convention facilities which in Scarborough are conveniently located close to all major office complexes. Furthermore, the cost of parking in Scarborough is less expensive than in other parts of Toronto.

* NOTE: At this time, the excess of office space has forced office leasing companies to offer incentives to attract tenants. Therefore, the cost of leasing office space can be influenced by several factors including the length of the lease and the amount of space leased.

ASSESSMENT GROWTH

Taxable Assessment

Assessment growth in Scarborough has been significant since the mid 1970's. The average growth yearly rate over the past 10 years was 3.3%. Industrial and commercial assessment grew at a yearly rate of 4.6% and residential assessment at the yearly rate of 2.6% in this period. In 1990 a 3.3% increase in total taxable assessment was recorded. Long term strength is expected in residential assessment due to significant condominium development. A significant growth rate for commercial assessment should also continue. The years of 1991 and 1992, however, should see a deceleration in both residential and commercial growth. The completion of commercial projects started in 1989-1990 will still contribute towards significant growth in 1991, but residential construction and especially single detached construction will be much lower in 1991 than 1989.

Taxable Assessment (millions of dollars)

Year	Total	Incr.	% Change	Industrial/ Commercial	Incr.	% Change	Residential	Incr.	% Change
1985	1,250.0	30.7	2.5	438.6	10.2	2.4	811.3	20.4	2.6
1986	1,284.9	34.9	2.8	463.2	24.6	5.6	821.7	10.4	1.3
1987	1,323.7	38.8	3.0	480.4	17.2	3.7	843.3	21.6	2.6
1988	1,361.2	37.5	2.8	504.4	24.0	5.0	856.8	13.5	1.6
1989	1,400.5	39.3	2.9	527.5	23.1	4.6	873.0	16.2	1.9
1990	1,447.1	46.6	3.3	547.6	20.1	3.8	899.4	26.4	3.0

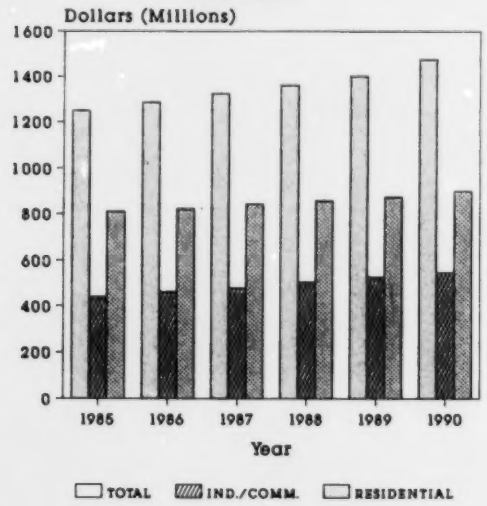
SCARBOROUGH TAXABLE ASSESSMENT 1985-1990



Source: Scarborough Economic Development Department, Economic Research Division, 1990

Ratio of Total Industrial/Commercial Assessment to Residential Assessment

1985 – 35.0/65.0
1986 – 36.0/63.9
1987 – 36.3/63.7
1988 – 37.0/62.9
1989 – 37.6/62.3
1990 – 37.8/62.2

CONSTRUCTION ACTIVITY

Construction activity as measured by the value of building permits was at 327.6 million dollars in 1990. This is a marked decrease from the value in 1989 which was 821 million dollars. The decrease was caused by the onset of recessionary conditions in 1990. Despite the economic decline, Scarborough was able to maintain a high level of housing construction in 1990. In total, Scarborough's housing starts accounted for 29% of all housing starts in the Metropolitan Toronto area in 1990.

Residential construction, which has traditionally been dominated by the single detached housing unit, is now composed mostly of apartments and condominiums. In 1990, apartment construction accounted for 90.7% of Scarborough's total housing starts. This emerging trend in housing construction has enabled Scarborough to maintain a high level of residential construction.

Once economic conditions improve we can expect a renewed surge of construction activity drawing upon proposed and approved projects with a combined value of over 5 billion dollars.

INDUSTRIAL AND COMMERCIAL LAND PRODUCTION

Industrial Land

Industrial Production Stock stood at 453.2 acres at the end of 1990. This amount maintained the 450-500 acres level from 1981 to 1987. Lands that have received Final Approval amounted to 4.1 acres in 1990. Lands involved in the approval process at the beginning of 1990 stood at 138.0 acres.

The decline in lands in process and lands with final approval reflects sluggish conditions in the marketplace. The stock of land at 453.2 acres is sufficient to meet demand for ready to build sites in the near future.

It is expected that once some of this land is depleted more land will be made available through the rezoning and subdivision process.

Absorption of Industrial Land

In 1990, absorption of industrial land in Scarborough's industrial districts totalled 21 hectares. This total shows a slight decrease from the previous year in which absorption reached 25 hectares. This drop in absorption can be attributed to the adverse economic conditions currently in the marketplace — a factor which has hampered the progression of proposed developments in Scarborough's industrial districts.

With the anticipated revival of the economy in the coming year, the absorption of industrial land in Scarborough is expected to increase once again.

COMMERCIAL LAND

Commercial land stocks at the end of 1990 stood at 61.2 acres. Building permits were issued for 16.2 acres, an increase over the values for 1989. Sufficient land is still available for sustained growth in commercial development.

DIRECTORY LISTING INFORMATION

The City of Scarborough 1991-1992 Business Directory contains information provided by representatives of each business listed through a mail in response card or a telephone interview. Listings consist of company name, full address, telephone and fax numbers, contact name and position, range of employment, and activity of the business.

All companies are listed in alphabetical order under the sub-groups belonging to each major group. The SIC codes are obtained from the 1980 Standard Industrial Classification book published by Statistics Canada.

THE ALL NEW 1992 TOYOTA CAMRY. IT WILL CHANGE THE ROAD FOREVER.

Introducing a car that will change the way you drive.

A car that will command the road, and the attention of every driver on it.

An exceptionally powerful, responsive car.

A car with a standard driver's side airbag supplemental restraint system (SRS), and available superb A.B.S. (Anti-Lock Braking System), just two of many sophisticated safety features.

A car so incredibly spacious – thanks to over 8 cubic feet of additional interior room – that it will seat five adults in perfect comfort.

A car so distinguished and so advanced, all others in its class will be judged against it.

Introducing the all new 1992 Toyota Camry.

Test drive one today. Experience for yourself just how it will change the road forever.
